

High Risk / WHS

Forklift

- **TLILIC2001 Licence to operate a forklift truck**
- **RIIHAN201D Operate a forklift**

This course is designed to give participants the skills and knowledge required to operate a forklift in the Resources and Infrastructure Industries. These units are appropriate for those working in operational roles. The work required relates to the National Standard for High Risk Work. Licensing, legislative, regulatory and certification requirements that apply to these units can vary between states, territories and industry sectors. Relevant information must be sourced prior to application.

Evidence is required to be collected which demonstrates a candidate's competency in this

unit. Evidence must be relevant to the roles within the sector's work operations and satisfy all of the requirements of the performance criteria of this unit.

Ask your local College about High Risk Training for your workplace.

We can provide you with a range of training from dogging to scaffolding and Skid Steers to Dozers.

High Risk / WHS

Cost: \$850 (Min. 5)
Check with your College, you may be eligible for funding subsidies
